Re. the Microsoft Settlement:

With regards to the new Microsoft settlement, we would like to add our thoughts to what so much of the American public thinks. We agree with the settlement and find it a tough but beneficial settlement for all concerned. We believe that the interests of all the parties are well served by this proposal and we urge you to finalize this settlement as soon as possible. As a consumer, we think the terms are fair to us as well as to the aggrieved parties. Please do not delay this proposal, Let's get this behind us, and keep the American economy moving!

Thank you.

Sincerely,

Thelma and Nelson Stevens
Barrington, IL.
